

CALL FOR PAPERS

6th Workshop on Logistics and Supply Chain Management

Quantitative Approaches for Supply Chain Improvement

October 5 to 7, 2009
Claremont Resort & Spa

In partnership and supported by Deutsche Post World Net

Workshop Co-Chairs

Carlos Daganzo
Robert Horonjeff Professor of Civil and Environmental Engineering, University of California Berkeley

Dieter Pütz
Senior Vice President IT Operations & International Mail, Deutsche Post World Net

Hans-Jürgen Sebastian
Deutsche Post Chair of Optimization of Distribution Networks, RWTH Aachen University

Workshop Organizer

Tobias Winkelkotte
Deutsche Post Chair of Optimization of Distribution Networks
tobias@or.rwth-aachen.de

International Workshop Committee

N. Bäns, Airbus, Germany
C. Carlsson, Abo Akademi, Turku
U. Clausen, Fraunhofer-Institute, Dortmund, Germany
C. Dannegger, Whitestein Technologies AG
H. Fromm, IBM, Germany
A. Geoffrion, UC Los Angeles
P. Kaminsky, UC Berkeley
A. Kimms, University of Duisburg-Essen, Germany
H. Kopfer, Bremen University
R. Lasch, TU Dresden
A. Marschner, Deutsche Post World Net
S. van den Berg, DHL Exel Supply Chain, Germany
S. Voß, Hamburg University
J. Wollenweber, Fraunhofer-Institute Nuremberg, Germany
C. Yano, UC Berkeley

You are cordially invited to participate in an international workshop on Logistics and Supply Chain Management organized by *RWTH Aachen University in cooperation with the University of California, Berkeley*. The first three workshops of this series were held in Berkeley from 2003 to 2005, while the fourth workshop took place in Hamburg 2006. The fifth workshop took place in Berkeley again, and also the sixth one will be held in the Claremont Resort & Spa, Berkeley.

Maintaining the tradition of the former workshops, one primary goal is to bring together people who are interested in the academic/practitioner-interface of Logistics and SCM. Therefore, most presentations will be given by industry leaders who collaborate with academic researchers and by faculty with an active consulting practice in SCM.

Focus and Topics

This workshop focuses on quantitative approaches for supply chain improvement, and is tentatively structured around the following topic sessions:

- Quantitative approaches in the strategic, tactical and operational planning phase of successful supply chains
- Multi-criteria analysis and design of supply chain processes considering criteria such as performance (KPI's), reliability, efficiency, flexibility and costs
- Use of IT-systems, e.g. Advanced Planning Systems for the improvement of supply chains in different industries

Venue and Program

The workshop will take place at the beautiful Claremont Resort & Spa, which is a Four-Diamond property located on 22 acres with great panoramic views of the San Francisco Bay and city skyline.

All presentations will be given on October 5 and 6. The workshop dinner takes place on October 5. We will conclude the meeting with a common excursion in the beautiful San Francisco Bay Area on October 7.

Abstract Submission

Researchers and practitioners are invited to submit an abstract (1-2 pages). Abstracts submitted by April 15, 2009, will receive preference in scheduling. We will continue to accept abstracts until June 10, 2009.

Registration

Early-bird registration ends on July 15, 2009. On-site registration is possible. Fees: Early-bird registration \$ 200, regular registration \$ 250. Registration fee covers refreshments on all workshop days, two lunches and the workshop dinner. In addition, every participant receives a complimentary copy of the workshop booklet.

Accommodation

A limited contingent of memorable rooms at the Claremont Resort & Spa is available at the rates of \$ 220 (Classic) and \$ 240 (Distinctive).

Reservations: Call +1 (800) 551-7266, conference code "UCB-RWTH Workshop on Logistics"
